

Price Guide 2020-21

Valid from: 1 July 2020

(Version 0.2 – Publication Date: 12/06/2020)

PRICES HAVE NOT YET BEEN INDEXED

TEMPORARY COVID LOADING REMOVED FROM 1 JULY 2020

**Indexed Prices will be released after the Fair Work Commission
announces the results of the Annual Wage Review 2019-20**

The effect of the reduction in the TTP will also then be applied

Introduction

This Price Guide sets out the price limits and associated pricing arrangements that will apply to National Disability Insurance Scheme (NDIS) supports from 1 July 2020. It is designed to assist participants and disability support providers, both current and prospective, to understand the way that price controls for supports and services work in the NDIS. Price regulation is in place to ensure that participants receive value for money in the supports that they receive.

Supports can be subject to price regulation in different ways:

- Price controlled supports should only be claimed by a provider from a participant's plan when they are reasonable and necessary to meet a participant's needs and are subject to the conditions set out in this Price Guide.
- Quotable supports should only be claimed by a provider from a participant's plan if the support is specifically included in the participant's plan. They are also subject to the conditions set out in this Price Guide.
- Some supports are not subject to price control. These supports should only be claimed by a provider from a participant's plan when they are reasonable and necessary to meet a participant's needs. They are subject to the other conditions set out in this Price Guide.

In general, support items subject to price controls have a single national price limit. However, some Capacity Building supports have two price limits: one for New South Wales, Victoria, Queensland and the Australian Capital Territory; and a different price limit for South Australia, Western Australia, Tasmania and the Northern Territory. There are also different price limits for supports delivered in remote and very remote areas.

The price limits set out in this Price Guide are the maximum prices that Registered Providers can charge NDIS participants for specific supports. There is no requirement for providers to charge at the maximum price for a given support or service. Providers must establish their own prices. Participants and providers are free to negotiate lower prices.

The price limits and other arrangements in this Price Guide must be followed when supports are delivered to NDIS participants for a support that is either agency-managed or plan-managed.

A provider of supports to a participant with an agency-managed plan (or of a support that is agency managed):

- must be a Registered Provider with the NDIS;
- must declare relevant prices to participants before delivering a service, including any notice periods or cancellation terms; and
- must adhere to the arrangements prescribed in this Price Guide, including ensuring that their prices do not exceed the price limits.

Providers are required to acknowledge compliance with the Price Guide when submitting a payment request through the myplace Provider Portal.

Plan managers must adhere to the arrangements prescribed in this Price Guide, including ensuring that their prices do not exceed the price limits, whether they purchase those supports from a registered or an unregistered provider. Plan managers are required to acknowledge compliance with the Price Guide when submitting payment requests through the myplace Provider Portal.

Self-managing participants can use registered or unregistered providers and are not subject to the pricing arrangements in this Price Guide.

Support Purposes, Support Categories and Support Items

This section describes the way that the NDIS categorises disability supports. These categories can be relevant to rules for participants about how they can spend their support budgets, and for providers when seeking payment for delivered supports.

Support Items

Each support that a provider supplies to a participant can be classified as one of the support items listed in this *Price Guide* and the *NDIS Support Catalogue*. **Providers should claim payments against the support item that aligns to the service they have delivered.**

Each support item has a unique reference number, according to the following structure:

For example:

01_013_0107_1_1 - Assistance with Self-Care Activities - Standard - Saturday

Support Category	Sequence Number	Registration Group	Outcome Domain	Support Purpose
01	013	0107	1	1

Support Purposes

NDIS participant budgets are allocated to three separate support purposes:

1. CORE – Supports that enable participants to complete activities of daily living. Participant budgets often have a lot of flexibility to choose specific supports with their core support budgets, but cannot reallocate this funding for other support purposes (i.e. capital or capacity building supports).
2. CAPITAL – Investments, such as assistive technologies - equipment, home or vehicle modifications, or for Specialist Disability Accommodation (SDA). Participant budgets for this support purpose are restricted to specific items identified in the participant's plan.
3. CAPACITY BUILDING – Supports that enable a participant to build their independence and skills.

Support Categories aligned to the NDIS Outcomes Framework

Participant budgets are allocated at a support category level and must be used to achieve the goals set out in the participant's plan. Support categories are aligned with the NDIS Outcomes Framework, which has been developed to measure goal attainment for individual participants and overall performance of the Scheme. There are eight outcome domains in the Framework, which help participants think about goals in different areas of their life and assist planners explore where supports in these areas already exist and where further supports are required. These domains are:

1. Daily Living
2. Home
3. Health and Wellbeing
4. Lifelong Learning
5. Work
6. Social and Community Participation
7. Relationships
8. Choice and Control

Support Purposes, Support Categories and Support Items

NDIS providers should be aware that all supports and services for NDIS participants must contribute to the achievement of their individual goals as outlined in the participant's plan. Support purpose categories are designed to align with the Outcomes Framework and the 15 support categories. This helps participants choose supports that help them achieve their goals, and providers to understand how the supports they provide contribute to the participant's goals.

The following table shows the links between support purpose types, domains in the Outcomes Framework and support categories.

PURPOSE	OUTCOME DOMAIN	SUPPORT CATEGORY
CORE	Daily Living	01 Assistance with Daily Life
	Daily Living	02 Transport
	Daily Living	03 Consumables
	Social and Community Participation Work	04 Assistance with Social, Economic and Community Participation 04 Assistance with Social, Economic and Community Participation
CAPITAL	Daily Living	05 Assistive Technology
	Home	06 Home Modifications and Specialised Disability Accommodation (SDA)
CAPACITY BUILDING	Choice and Control	07 Support Coordination
	Home	08 Improved Living Arrangements
	Social and Community Participation Work	09 Increased Social and Community Participation
	Relationships	10 Finding and Keeping a Job
	Health and Wellbeing	11 Improved Relationships
	Lifelong Learning	12 Improved Health and Wellbeing
	Choice and Control	13 Improved Learning
	Daily Living	14 Improved Life Choices
		15 Improved Daily Living Skills

Registration Groups

Each support item specifies the Registration Group for which a Registered Provider who delivers the support must be registered with the NDIS Quality and Safeguards Commission. There are currently 36 Registration Groups.

Registration Group	
Number	Name
General Registration Groups	
0101	Accommodation / Tenancy Assistance
0102	Assistance to Access and Maintain Employment or Higher Education
0104	High Intensity Daily Personal Activities
0106	Assistance in Coordinating or Managing Life Stages, Transitions And Supports
0107	Daily Personal Activities
0108	Assistance with Travel/Transport Arrangements
0115	Assistance with Daily Life Tasks in a Group or Shared Living Arrangement
0116	Innovative Community Participation
0117	Development of Daily Living and Life Skills
0120	Household Tasks
0125	Participation in Community, Social and Civic Activities
0127	Management of Funding for Supports
0129	Specialised Driver Training
0130	Assistance Animals
0131	Specialised Disability Accommodation
0133	Specialised Supported Employment
0136	Group and Centre Based Activities
Professional Registration Groups	
0110	Specialist Positive Behaviour Support

Support Purposes, Support Categories and Support Items

Registration Group	
Number	Name
0114	Community Nursing Care
0118	Early Intervention Supports for Early Childhood
0119	Specialised Hearing Services
0121	Interpreting and Translation
0126	Exercise Physiology and Personal Well-being Activities
0128	Therapeutic Supports
0132	Support Coordination
0134	Hearing Services
0135	Custom Prostheses and Orthoses
Home and Vehicle Modification registration Groups	
0109	Vehicle Modifications
0111	Home Modification Design and Construction
Assistive Technology and Equipment Registration Groups	
0103	Assistive Products for Personal Care and Safety
0105	Personal Mobility Equipment
0112	Assistive Equipment for Recreation
0113	Vision Equipment
0122	Hearing Equipment
0123	Assistive Products for Household Tasks
0124	Communication and Information Equipment

Units of Measure

The NDIS payment system includes units of measure for each support item as follows:

- Each
- Hour
- Daily
- Week
- Month
- Annual

General Claiming Rules

Registered Providers can only make a claim for payment for a support once that support has been delivered or provided. Where price limits apply, prices charged to participants must not exceed the price limit prescribed for that support in this Price Guide.

Providers are responsible for ensuring that the claims for payment that they make accurately reflect the supports delivered, including the frequency and volume and type of support. Claims need to be made against the specific support item that aligns to the service delivered. Falsifying claims for payment is a serious compliance issue and may result in action against the provider. Providers are also required to keep accurate records of claims, which are subject to audit.

Service Agreements

A Service Agreement is a formal agreement between a participant and provider. They help to ensure there is a shared understanding of:

- expectations of what supports will be delivered and how they will be delivered; and
- the respective responsibilities and obligations of the provider and the participant and how to resolve any problems that may arise.

Service Agreements should be simple and set out how and when supports will be delivered. They can include information such as:

- what supports and services the provider has agreed to provide;
- the prices of those supports and services;
- how, when and where the supports and services are be provided;
- the duration of the Service Agreement;
- when and how the Service Agreement will be reviewed;
- how the participant or the provider may change or end the Service Agreement;
- how any problems or issues that may arise will be handled;
- participant responsibilities under the Service Agreement; and
- provider responsibilities under the Service Agreement.

Service Bookings

Service bookings are used to set aside funding in a participant's plan for an NDIS registered provider for a support or service they will deliver. Service bookings can be made by the participant or provider in the myplace portal. Providers claim payments against the service booking in the myplace portal. Each service booking sets out the specific supports or support category delivered and period of service delivery within the current participant plan dates. Service bookings are not the same as service agreements.

The Agency recommends that service bookings should be created at the category level, where possible. This allows providers and participants to negotiate or access supports on a more flexible basis, especially for on-the-spot assessments or less predictable support needs. **A provider must have a service booking in place to make a payment claim in the Portal.**

Further information can be found on the NDIS [website](#).

Regional, Remote and Very Remote Areas

Different pricing arrangements can apply depending on whether a support is delivered in a regional remote or very remote area.

Modified Monash Model

To determine whether a support is being delivered in a regional remote or very remote area the NDIA uses a modification of the Modified Monash Model (MMM).

The MMM determines regional, remote and very remote areas using a scale based on population size and locality (see Table below).

Description	NDIA Zone	MMM	Inclusion
Metropolitan	MMM 1	1	All areas categorised as Major Cities of Australia.
Regional Centres	MMM 2-3	2	Areas categorised as Inner Regional Australia or Outer Regional Australia that are in, or within 20km road distance, of a town with population >50,000.
		3	Areas categorised as Inner Regional Australia or Outer Regional Australia that are not in MM 2 and are in, or within 15km road distance, of a town with population between 15,000 and 50,000.
Regional Areas	MMM 4-5	4	Areas categorised as Inner Regional Australia or Outer Regional Australia that are not in MM 2 or MM 3, and are in, or within 10km road distance, of a town with population between 5,000 and 15,000.
		5	All other areas in Inner Regional Australia or Outer Regional Australia.
Remote	MMM 6	6	All areas categorised Remote Australia that are not on a populated island that is separated from the mainland and is more than 5km offshore.
Very Remote	MMM 7	7	All other areas – that being Very Remote Australia and areas on a populated island that is separated from the mainland in the ABS geography and is more than 5km offshore.

Providers and participants can determine the MMM rating of a location using the Health Workforce Locator tool on the Department of Health's [website](#). Currently, NDIS geographic locations are based on the 2015 version of the Modified Monash Model.

Isolated Towns Modification

The NDIA modifies the Modified Monash Model classification of some locations. Where a location is surrounded by Remote or Very Remote areas then the NDIA classifies that enclave as a Remote area for planning and pricing purposes. The following Table sets out the enclaves that the NDIA has reclassified.

NDIA Enclave	Postcode	Location Name	State	MMM Rating	NDIS MMM Rating
Hay	2711	Hay	NSW	5	6
	2711	Hay South	NSW	5	6
Balranald	2715	Balranald	NSW	5	6

Pricing Arrangements in Regional, Remote and Very Remote Areas

In general, price limits are 40% higher in Remote areas and 50% higher in Very Remote areas. There is no additional loading applied for supports in Metropolitan areas, Regional Centres or Regional Areas. However, some different pricing arrangements do apply in Regional Areas (MMM4-5) as set out in this *Price Guide*.

When a support is provided directly (face-to-face) to a participant, the price limit that applies to a support is determined by the location of the participant at the time of service delivery. For example, if a participant living in a Remote location visits a provider in another location to receive a service, the support is subject to the price limit that applies to that location – not the Remote price limit.

Where a support is not provided directly (for example, a Non-Face-to-Face support, including a support provided through teleservice) then the price limit that applies to the support is the price limit that would apply if the participant was receiving the support at the place that the person who is delivering the support is located at the time of service delivery.

Time of Day and Day of Week

In determining which price limit is applicable to a support, the important consideration is when the support is provided to the participant, not the shift of the worker used to deliver that support as determined by the applicable Industry Award or Enterprise Bargaining Agreement (EBA).

For NDIS claiming purposes, the provider must first determine the day of the week on which the support was provided on and then the time of the day during which the support was delivered.

(Note: weekday means Monday, Tuesday, Wednesday, Thursday, or Friday).

- A **Night-time Sleepover Support** is any support to an individual participant delivered on a weekday, a Saturday, a Sunday or a Public Holiday that:
 - commences before midnight on a given day and finishes after midnight on that day; and
 - is for a continuous period of eight (8) hours or more; and
 - the worker is allowed to sleep when they are not providing support.
- A **Public Holiday Support** is any support to an individual participant that starts at or after midnight on the night prior to a Public Holiday and ends before or at midnight of that Public Holiday (unless that support is a Night-time Sleepover Support).
- A **Saturday Support** is any support to an individual participant that starts at or after midnight on the night prior to a Saturday and ends before or at midnight of that Saturday (unless that support is a Public Holiday Support or a Night-time Sleepover Support).
- A **Sunday Support** is any support to an individual participant that starts at or after midnight on the night prior to a Sunday and ends before or at midnight of that Sunday (unless that support is a Public Holiday Support or a Night-time Sleepover Support).
- A **Weekday Support** is any other support, and is either:
 - A **Weekday Daytime Support** is any support to an individual participant that starts at or after 6:00 am and ends before or at 8:00 pm on a single weekday (unless that support is a Public Holiday Support or a Night-time Sleepover Support).
 - A **Weekday Evening Support** is any support to an individual participant that starts after 8:00 pm and finishes at or before midnight on a single weekday (unless that support is a Public Holiday Support or a Night-time Sleepover Support).
 - A **Weekday Night Support** is any support to an individual participant that commences at or before midnight on a weekday and finishes after midnight on that weekday, or commences before 6:00 am on a weekday and finishes on that weekday (unless that support is a Public Holiday Support, Saturday Support, Sunday Support or a Night-time Sleepover Support).

If a support to an individual participant does not meet one of the above criteria then it needs to be billed as two or more separate supports. An exception to this general rule occurs when a particular support crosses a shift boundary and the same worker delivers the entire support. In this case, the higher of the relevant price limits applies to the entire support and the provider should make the claim against the relevant support item. Providers are required to discuss this billing arrangement with the participant.

Night-Time Sleepover supports

Night-Time Sleepover supports provide a participant with assistance with, or supervision of, personal tasks of daily life where overnight support is needed, but the caregiver can sleep when

not required to provide support. This support applies to any day of the week and on public holidays. This support item includes up to two hours of active supports provided to the participant for the duration of the period. Providers may claim for the third or additional hour at Saturday rates on weekdays, or at applicable rates on other days (Saturday, Sunday or Public Holidays).

Claiming for non-direct services

Non-Face-to-Face Support Provision

Providers can only claim from a participant's plan for the Non-Face-to-Face delivery of a support item if all of the following conditions are met:

- this *Price Guide* indicates that providers can claim for Non-Face-to-Face Support Provision in respect of that support item; and
- the proposed charges for the activities comply with this *Price Guide* and with the Service Agreement with the participant; and
- the activities are part of delivering a specific disability support item to that participant (rather than a general activity such as enrolment, administration or staff rostering); and
- the provider explains the activities to the participant, including why they represent the best use of the participant's funds (that is, the provider explains the value of these activities to the participant); and
- the provider has the agreement of the participant in advance (that is, the service agreement between the participant and provider specifies that Non-Face-to-Face supports can be claimed).

For example, the Assistance with Self Care support items are described as covering activities "Assisting with, and/or supervising, personal tasks of daily life to develop skills of the participant to live as autonomously as possible". Therefore, time spent on Non-Face-to-Face activities that assist the participant – for example, writing reports for co-workers and other providers about the client's progress with skill development – could be claimed against this support item.

The costs of training and upskilling staff, and of supervision, are included in the base price limits for supports and are not considered billable Non-Face-to-Face supports. However, research undertaken by a capacity-building provider specifically linked to the needs of a participant and to the achievement of the participant's goals may be billable as a Non-Face-to-Face support with the participant's prior agreement.

Service agreements with each client can 'pre-authorise' these activities, but providers should only charge a participant for delivering a support item if they have completed activities that are part of the support for that participant. Charging a fee that is not linked to completed activities is not permitted.

Time spent on administration, such as the processing of NDIS payment claims for all clients, should not be claimed from a participant's budget as a Non-Face-to-Face support. The NDIS price limits include an allowance for overheads, including the costs of administration tasks. Examples of administrative activities that are covered by the overhead component of the support price limits and that should not be billed as Non-Face-to-Face supports include, but are not limited to:

- pre-engagement visits;
- developing and agreeing Service Agreements;

General Claiming Rules

- entering or amending participant details into system;
- making participant service time changes;
- staff / participant travel monitoring and adjustment;
- ongoing NDIS plan monitoring;
- completing a quoting tool; and
- making service bookings and payment claims.

In working out the fee for Non-Face-to-Face supports, it is not appropriate to charge all participants an average additional fee. The additional fee must be worked out in each case and related specifically to the Non-Face-to-Face supports delivered to the particular participant. This is not to say that the same additional fee might not end up being charged to a number of participants, but it must be worked out separately.

Claims for Non-Face-to-Face supports are made using the relevant support item, using the “Non-Face-to-Face” option in the myplace portal.

Provider Travel

Providers can only claim from a participant’s plan for travel costs in respect of the delivery of a support item if all of the following conditions are met:

- this *Price Guide* indicates that providers can claim for Provider Travel in respect of that support item; and
- the proposed charges for the activities comply with this *Price Guide*; and
- the activities are part of delivering a specific disability support item to that participant; and
- the support is delivered directly (face-to-face) to the participant; and
- the provider explains the activities to the participant, including why they represent the best use of the participant’s funds (that is, the provider explains the value of these activities to the participant); and
- the provider has the agreement of the participant in advance (that is, the Service Agreement between the participant and provider should specify the travel costs that can be claimed); and
- the provider is required to pay the worker delivering the support for the time they spent travelling as a result of the agreement under which the worker is employed; or the provider is a sole trader and is travelling from their usual place of work to or from the participant, or between participants.

Provider Travel – Labour Costs (Time)

Where a provider claims for travel time in respect of a support then the maximum amount of travel time that they can claim for the time spent travelling to each participant (for each eligible worker) is 30 minutes in MMM1-3 areas and 60 minutes in MMM4-5 areas. (Note the relevant MMM classification is the classification of the area where the participant is when the support is delivered.)

In addition to the above travel, capacity-building providers who are permitted to claim for provider travel in respect of a support item can also claim for the time spent travelling from the last participant to their usual place of work. The maximum amount of travel time that they can claim for the time spent on return travel (for each eligible worker) is 30 minutes in MMM1-3 areas and 60

minutes in MMM4-5 areas. (Note the relevant MMM classification is the classification of the area where the participant is when the support is delivered.)

Where a worker is travelling to provide services to more than one participant in a 'region' then the provider should apportion that travel time (including the return journey where applicable) between the participants, with the agreement of each participant in advance.

Claims for travel in respect of a support must be made separately to the claim for the primary support (the support for which the travel is necessary) using the same line item as the primary support and the "Provider Travel" option in the myplace portal. When claiming for travel in respect of a support, a provider should use the same hourly rate as they have agreed with the participant for the primary support (or a lower hourly rate for the travel if that is what they have agreed with the participant) in calculating the claimable travel cost.

Provider Travel - Non-Labour Costs

If a provider incurs costs, in addition to the cost of a worker's time, when travelling to deliver Face-to-Face supports to a participant (such as road tolls, parking fees and the running costs of the vehicle), they may negotiate with the participant for them to make a reasonable contribution towards these costs. The NDIA considers that the following would be reasonable contributions:

- up to \$0.85 a kilometre for a vehicle that **is not** modified for accessibility; and
- other forms of transport or associated costs up to the full amount, such as road tolls, parking, public transport fares.

Claims can only be made for the non-labour costs associated with provider travel in respect of a support where the rules governing provider travel allow a claim for provider travel time to be made.

Claims for the non-labour costs of provider travel in respect of a support must be made separately to the claim for the primary support (the support for which the travel is necessary) and for the travel time associated with the provider travel. The non-labour costs should be claimed against the relevant "Provider Travel – non-labour costs" support item as indicated in this *Price Guide*.

Support items

These support items can be delivered to individual participants or groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

These support items are not subject to price limits.

Example – Provider Travel – Core support – Single Participant – MMM 1-3

(In this example, the support is 01_301_0104_1_1.)

A support worker employed by a provider travels for 25 minutes (30 kilometres) to a participant who is located in zone 3 of the Modified Monash Model. They provide two hours of support to the participant. They then spend 25 minutes (30 kilometres) returning to their usual place of business.

The provider and participant have agreed an hourly rate of \$50.00, which is below the price limit for this item. **They have also agreed that the provider can claim for travel time and for the non-labour costs associated with that travel (at \$0.78 per allowable kilometre).**

The provider is entitled to apply the 30-minute time-cap against the 25 minutes of travel to the participant. They are not entitled to claim for the time spent travelling back to their usual place of business; even though some of that time could fit within the 30-minute time-cap. In total, 25 minutes of travel can be claimed.

Because the worker uses his or her own care to drive to the participant, the provider has agreed to pay the worker \$0.78 per kilometre travelled. The provider can also seek reimbursement for this cost from the participant's plan under the Service Agreement.

The provider's claim for this support is in three parts, which should be shown separately on their invoice to the participant and claimed for separately in the system.

- \$100.00 for the two hours of support against support item 01_301_0104_1_1;
- \$20.83 for the 25 minutes travel to the participant because

$$\left(\frac{25}{60}\right) \times \$50 \text{ agreed price} = \$20.83 \text{ travel claim}$$

against support item 01_301_0104_1_1 using the drop down field "Provider Travel"; and

- \$23.40 for the 30 kilometres travel to the participant against support item 01_799_0104_1_1.

Example – Capacity building support –Single Participant – MMM 1-3

(In this example, the support is 15_056_0128_1_3)

A Provider travels for 35 minutes (40 kilometres) to a participant who is located in zone 3 of the Modified Monash Model. They provide two hours of support to the participant. They then spend 25 minutes (40 kilometres) returning to their usual place of business.

The provider and participant have agreed an hourly rate of \$190.00. **They have also agreed that the provider can charge for their travel time and for the non-labour costs associated with that travel (at \$0.78 per allowable kilometre).**

The provider is entitled to apply the 30-minute time-cap against the 35 minutes of travel to the participant. They are also entitled to claim for the time spent travelling back to their usual place of business by applying the 30-minute time-cap against the 25 minutes of return travel. In total, 55 minutes of travel can be claimed.

Because the provider uses his or her own care to drive to the participant, they are entitled to claim for the non-labour costs associated with this travel under the Service Agreement between the provider and the participant indicates that the provider can seek reimbursement for this cost from the participant's plan. Because the travel time for both the journey to and from the participant are claimable in this case, the non-labour costs associated with both periods of travel can also be claimed under the Service Agreement.

The provider's claim for these supports is in three parts, which should be shown separately on their invoice to the participant and claimed for separately.

- \$380.00 for the two hours of support against support item 15_056_0128_1_3
- \$174.17 for the 55 minutes travel to the participant because

$$\left(\frac{55}{60}\right) \times \$190 \text{ agreed price} = \$174.17 \text{ travel claim}$$

against support item 15_056_0128_1_3 using the drop down field "Provider Travel"; and

- \$62.40 for the 80 kilometres travel to and from the participant against support item 15_799_0128_1_3.

Example – Core support – Multiple Participants – MMM 4-5

(In this example, the support is 01_301_0104_1_1)

A Provider travels for 65 minutes (60 kilometres) to Participant A who is located in zone 4 of the Modified Monash Model. They then provide two hours of the support to participant A. The provider then travels 25 minutes (50 kilometres) to Participant B, who is also located in zone 4. They deliver one hour of support to participant B. They then spend 45 minutes (40 kilometres) returning to their usual place of business.

The provider and participants have agreed an hourly rate of \$50.00. **They have also agreed that the provider can charge for their travel time and for the non-labour costs associated with that travel (at \$0.78 per allowable kilometre) and that the provider can apportion the costs of the travel between the participants.**

The provider is entitled to apply the 2x60 minute time-cap against the 65 minutes of travel to participant A and the 25 minutes of travel to participant B. They are not entitled to claim for the time spent travelling back to their usual place of business, even though some of that time could fit under the 2x60 minute time-cap. In total, 90 minutes of travel (65 + 25) can be claimed.

Because the worker uses his or her own care to drive to the participant, the provider has agreed to pay the worker \$0.78 per kilometre travelled. The provider can also seek reimbursement for this cost from the participants' plans under the Service Agreement. However, they are only entitled to claim for 110 kilometres, as the return travel to their usual place of business after the last participant is not claimable.

The provider's claim for these supports is in three parts for each participant, which should be shown separately on their invoice to the participant and claimed for separately.

Participant A

- \$100.00 for the two hours of support against support item 01_301_0104_1_1;
- \$37.50 for the 45 minutes travel to and between participants against support item 01_301_0104_1_1 using the drop down field "Provider Travel"; and
- \$42.90 for 55 kilometres travel to and between participants against support item 01_799_0104_1_1.

Participant B

- \$50.00 for the one hour of support against support item 01_301_0104_1_1;
- \$37.50 for the 45 minutes travel to and between participants against support item 01_301_0104_1_1 using the drop down field "Provider Travel"; and
- \$42.90 for 55 kilometres travel to and between participants against support item 01_799_0104_1_1.

Provider Travel (in remote and very remote areas)

In remote areas, capacity-building providers may enter specific arrangements with participants to cover travel costs, up to the relevant hourly rate for the support item. Providers should assist participants to minimise the travel costs that they need to pay (for example, by co-ordinating appointments with other participants in an area, so that travel costs can be shared between participants, or by considering the delivery of the support by teleservice where appropriate).

Short Notice Cancellations

Where a provider has a Short Notice Cancellation (or no show) they are able to claim 100% of the agreed fee associated with the activity from the participant's plan, subject to this *Price Guide* and the terms of the service agreement with the participant.

A cancellation is a short notice cancellation if the participant:

- does not show up for a scheduled support within a reasonable time, or is not present at the agreed place and within a reasonable time when the provider is travelling to deliver the support; or
- has given less than two (2) clear business days' notice for a support that meets both of the following conditions:
 - the support is less than 8 hours continuous duration; AND
 - the agreed total price for the support is less than \$1000; or
- has given less than five (5) clear business days' notice for any other support.

Providers can only claim from a participant's plan for a Short Notice Cancellation of the delivery of a support item to the participant if all of the following conditions are met:

- this *Price Guide* indicates that providers can claim for Short Notice Cancellations in respect of that support item; and
- the proposed charges for the activities comply with this *Price Guide*; and
- the provider has the agreement of the participant in advance (that is, the service agreement between the participant and provider should specify that Short Notice Cancellations can be claimed); and
- the provider was not able to find alternative billable work for the relevant worker and are required to pay the worker for the time that would have been spent providing the support.

Claims for a short notice cancellation should be made using the same support item as would have been used if the support had been delivered, using the "Cancellation" option in the myplace portal.

There is no hard limit on the number of short notice cancellations (or no shows) for which a provider can claim in respect of a participant. However, providers have a duty of care to their participants and if a participant has an unusual number of cancellations then the provider should seek to understand why they are occurring. The NDIA will monitor claims for cancellations and may contact providers who have a participant with an unusual number of cancellations.

Example – Short Notice Cancellation

A one-hour support is scheduled for 10 am on a Tuesday following a Public Holiday Monday.

The participant cancels the support after 10 am on the Thursday before the Public Holiday Monday and the provider is not able to find alternative billable work for the relevant worker and is required to pay the worker for the time that would have been spent providing the support.

If the Service Agreement between the participant and the provider has included cancellation arrangements then the provider can claim for this support. The claim should be made at the agreed rate for the service against the relevant support item using the drop down field "Cancellation".

NDIA Requested Reports

Providers can only claim from a participant's plan for a NDIA Requested Report if all of the following conditions are met:

- this *Price Guide* indicates that providers can claim for NDIA Requested Reports in respect of that support item; and
- the proposed charges for the activities comply with this *Price Guide*; and
- the provider has the agreement of the participant in advance (i.e. the service agreement between the participant and provider should specify that NDIA Requested Reports can be claimed); and
- the report is requested by the NDIA.

A report is considered to have been requested by the NDIA if it is a report that is required at the commencement of a plan that outlines plan objectives and goals, or at plan review, which measures functional outcomes against the originally stipulated goals. In these reports, providers can also be asked to make recommendations for ongoing identified needs (informal/community/mainstream and/or funded supports). Providers may also claim for any other NDIA-requested therapy report that is stipulated as being required in a participant's plan.

Claims for NDIS requested reports should be made using the relevant support item, using the "NDIA Report" option in the myplace portal.

Claiming for Activity Based Transport

Activity Based Transport – Social, Economic and Community Participation Supports

Providers of supports in the Assistance with Social & Community Participation Support Category ("community participation supports") can, at the request of a participant, transport a participant to, or from, or as part of, a community participation support. In these cases, the provider is entitled, with the agreement of the participant, to bill the participant's plan for the time that support workers spend providing the transport support (as part of the community participation support). They are also entitled to bill for any non-labour costs associated with transporting the participant (again, as part of the community participation support).

The worker's time can be claimed at the agreed hourly rate for the relevant support item for the total time the worker provides support to one or more participants, including time spent accompanying and/or transporting the participant. Where a provider is transporting two or more participants on the same trip, the worker's time should be apportioned amongst participants. This claim should be made using the relevant community participation support item and against the participant's core budget.

General Claiming Rules

If a provider incurs costs, in addition to the cost of a worker's time, when accompanying and/or transporting participants in the community (such as road tolls, parking fees and the running costs of the vehicle), they may negotiate with the participant for them to make a reasonable contribution towards these costs. The NDIA considers that the following would be reasonable contributions:

- up to \$0.85 a kilometre for a vehicle that **is not** modified for accessibility
- up to \$2.40 a kilometre for a vehicle that is modified for accessibility or a bus
- other forms of transport or associated costs up to the full amount, such as road tolls, parking, public transport fares.

Support items

These non-labour costs should be claimed against the relevant activity based transport support item in the community participation support category. These support items can be delivered to individual participants or groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

These support items are not subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
04_590_0125_6_1	Activity Based Transport	Each		N/A	
04_591_0136_6_1	Activity Based Transport	Each		N/A	
04_592_0104_6_1	Activity Based Transport	Each		N/A	
04_821_0133_6_1	Activity Based Transport	Each		N/A	

Activity Based Transport - Capacity Building Supports

Providers of the following capacity building support items are also, with the agreement of a participant, permitted to claim for Activity Based Transport when delivering those supports.

Registration Group	Support Category	Support Number	Support Name
102 - Assistance to Access and Maintain Employment or Higher Education	Finding and keeping a job	10_016_0102_5_3	Individual Employment Support
	Improved learning	13_030_0102_4_3	Transition Through School And To Further Education
106 - Assistance In Coordinating Or Managing Life Stages, Transitions And Supports	Improved living arrangements	08_005_0106_2_3	Assistance With Accommodation And Tenancy Obligations
	Increased social and community participation	09_006_0106_6_3	Life Transition Planning Incl. Mentoring, Peer-Support And Individual Skill Develop
	Support Coordination	07_101_0106_6_3 to 07_105_0106_6_3	Psychosocial Recovery Coaching
117 - Development Of Daily Living And Life Skills	Increased social and community participation	09_009_0117_6_3	Individual Skills Development And Training
	Improved relationships	11_024_0117_7_3	Individual Social Skills Development

Support items

These support items can be delivered to individual participants or groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants, the provider should claim for the relevant fraction of the time of the support from each participant's plan. These support items are not subject to price limits.

General Claiming Rules

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
07_501_0106_6_3	Activity Based Transport	Each		N/A	
08_590_0106_2_3	Activity Based Transport	Each		N/A	
09_590_0106_6_3	Activity Based Transport	Each		N/A	
09_591_0117_6_3	Activity Based Transport	Each		N/A	
10_590_0102_5_3	Activity Based Transport	Each		N/A	
10_590_0133_5_3	Activity Based Transport	Each		N/A	
11_590_0117_7_3	Activity Based Transport	Each		N/A	
13_590_0102_4_3	Activity Based Transport	Each		N/A	

Example – Activity Based Transport

(In this example, the support is 04_104_0125_6_1.)

A Provider has agreed to deliver a support in the Assistance with Social, Economic and Community Participation Support Category to a participant and the participant has requested that the provider transport the participant from their home to a local swimming pool and back again, as part of that support.

The transport by a non-disability modified vehicle takes 25 minutes to arrive at the swimming pool, including the time to assist the participant to and from the vehicle and getting them set up to participate in the activity. The support worker accompanies the participant in the vehicle. They then provide 40 minutes of support to the participant at the pool. Afterwards, they spend 20 minutes returning the participant to their home by the same vehicle. The pool is 10 kilometres from the participant's home.

The provider and participant have agreed an hourly rate of \$50.00, which is below the price limit for this item. This amount also applies to the support worker's time when transporting participants.

The provider and participant have also agreed for the provider to claim for the activity based transport costs, which in this case they have agreed are the support worker's car park fee (\$5) and vehicle running costs at a rate as agreed with the participant of \$0.85 a kilometre (2x10 km) against support line item

The provider's claim for the support will be claimed in the Portal as:

- \$78.00 for the 40 minutes of direct support at the swimming pool and 45 minutes transport time against support item 04_104_0125_6_1;
- \$22.00 for the non-labour costs of the activity based transport against the support item 04_590_0125_6_1.

Note: The provider may also be able to make a claim for the time taken by the worker to travel to the participant before the support commences (see the discussion of Provider Travel above).

Claiming for Group Based Supports

When a support item is delivered to more than one participant at the same time, the provider should apportion the time spent on the support among the participants. A claim should be made for the support item against each participant's plan for the relevant share of the total time of the support. Providers can only claim for supports that are related to the reasonable and necessary needs of a participant. Where a participant attends a group based session then a provider should only claim for the time of more than one worker against that participant's plan if all those workers were involved in the direct support of the participant for the time claimed.

Programs of Support

A provider of group based supports in the *Assistance with Social, Economic and Community Participation* Support Category, including Supports in Employment, can enter into an agreement with a participant for a "program of support", especially where the program is towards the achievement of a specified outcome. Under this approach, providers claim against the plans of all the participants who had agreed to attend an instance of support in the program of support as though they had attended (whether or not they did) – as long as the provider had the capacity to

deliver the instance of support. Supports delivered as part of a program of supports are not subject to the short notice cancellation rules.

Programs of support can only be offered if the duration of the program is no longer than 12 weeks (unless specifically allowed for in the *Price Guide*); and participants are able to exit from the program of supports without cost, subject to a notice period of no more than two (2) weeks.

Providers must enter into a service agreement with a participant specifying the program of support, including its length, exit rules and intended outcomes. These agreements must be consistent with this *Price Guide*.

Providers cannot pre-claim for programs of support. Each instance of support in the program of support has to be delivered before the provider can claim for that instance of support.

Claiming for Centre Based Social, Economic and Community Participation Supports

When a support item in the Social, Economic and Community Participation Support Category is delivered in a facility (Centre), by a provider in one of the following Registration Groups:

- High Intensity Daily Personal Activities (0104);
- Specialised Supported Employment (0133); and
- Group and Centre Based Activities (0136)

the provider can claim an additional amount for the costs of running and maintaining the facility through the relevant Centre Capital Cost support item.

Centre Capital Costs

The Centre Capital Cost support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

These support items are subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
04_599_0104_6_1	Centre Capital Cost	Hour	\$2.10	\$2.94	\$3.15
04_599_0133_5_1	Centre Capital Cost	Hour	\$2.10	\$2.94	\$3.15
04_599_0136_6_1	Centre Capital Cost	Hour	\$2.10	\$2.94	\$3.15
10_599_0133_5_3	Centre Capital Cost	Hour	\$2.10	\$2.94	\$3.15

Claiming for Establishment Fees for Personal Care/Participation Supports

These support items recognise the otherwise non-claimable costs that providers face in establishing arrangements with participants. They can be delivered to individual participants subject to the rules set out in this *Price Guide*.

These support items are claimable by a provider who assists a participant with the implementation of their NDIS Plan, who has made an agreement with the participant to supply a minimum of 20 hours per month for three or more consecutive months of:

- **Personal Care Supports** – that is, supports in the Activities of Daily Living Support Category that are delivered by providers in the Registration Groups:
 - Daily Personal Activities (0107); or

General Claiming Rules

- High Intensity Daily Personal Activities (0104); or
- **Participation Supports** – that is, supports in the Social, Economic and Community Participation Support Category delivered by providers in the Registration Groups:
 - Participation in Community, Social and Civic Activities (0125); or
 - Group and Centre Based Activities (0136); or
 - High Intensity Daily Personal Activities (0104) when delivered for community access or group supports; or
 - Specialised Supported Employment (0133).

Each provider can only claim an Establishment Fee in respect of a participant once across all plans. If a provider delivers services to a participant through more than one Registration Group or more than one Support Category they can only claim for one Establishment Fee, and only if they meet the other requirements set out above. More than one provider is able to claim an Establishment Fee against a given plan as long as each provider meets the other requirements set out above.

These support items are subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
01_049_0104_1_1	Establishment Fee for Personal Care/Participation	Each	\$528.50	\$739.90	\$792.75
01_049_0107_1_1	Establishment Fee for Personal Care/Participation	Each	\$528.50	\$739.90	\$792.75

04_811_0133_5_1	Establishment Fee for Personal Care/Participation	Each	\$528.50	\$739.90	\$792.75

Claiming for Shadow Shifts

Shadow shifts may be considered where the participant has complex individual support needs that are best met by introducing a new worker to the participant before it is reasonable that they commence providing the support independently. These are considered where the specific individual support needs include very limited communication; behaviour support needs; and/or medical needs/procedures such as ventilation or Home Enteral Nutrition (HEN).

Where the individual would require shadow shifts to assist with the introduction of new workers, and this is the desired method by the participant or their family, the provider may claim for up to 6 hours of weekday support per year.

Other Considerations

Supports must be Reasonable and Necessary

The NDIS provides funding to participants for supports and services aimed at increasing their independence, inclusion, and social and economic participation.

Supports funded by the NDIS need to:

- be related to the participant's disability;
- not include day-to-day living costs that are not related to a participant's disability support needs;

- represent value for money; and
- be likely to be effective and beneficial to the participant.

Providers should not claim for supports from a participant's plan where the support is not in line with the participant's goals, objectives and aspirations as set out in their plan or where the support is not reasonable and necessary. Providers should also not claim for supports from a participant's plan where the support is more appropriately funded or provided through other service systems. Further information on when a support is considered reasonable and necessary can be found on the NDIS [website](#).

Medicare and insurance

Some elements of a participant's care may be covered by funds outside the NDIS. These expenses are commonly medical, including those covered by private health insurance or Medicare. These medical expenses are not funded under the NDIS, even if they are related to, or a symptom of, the disability. These expenses should be claimed under the relevant health care scheme or insurance policy. Some providers (e.g. therapists) may need to distinguish between the health services and disability supports that they provide to a single client, and make separate payment claims to, for example, Medicare and the NDIS.

Prepayments

Registered Providers can make a claim for payment once a service booking has been created and the support has been delivered or provided. Prepayment is not permitted unless the NDIA has given prior approval in writing to the Registered Provider. This will only occur in exceptional circumstances such as for certain assistive technologies, home modifications and remote area servicing where this has been agreed to by the participant.

Co-payments for Capital items, including Assistive Technology

Co-payments by the participant are not required. However, where a participant would like a customisation to a support or assistive technology that is not considered reasonable or necessary, they are required to pay for these themselves. These may include an aesthetic customisation to an assistive technology or modifications to a vehicle that are additional to the assistive components.

Expenses related to Recreational Pursuits

Providers should not claim payment from participant's plans for:

- expenses related to recreational pursuits, such as event tickets for the participant, as they are not covered by the NDIS; or
- the cost of entry for a paid support worker to attend a social or recreational event.

Goods and Services Tax (GST)

Many, but not all, NDIA supports provided to NDIS participants are GST-free. Further information about the NDIS and GST can be accessed on the [Australian Taxation Office website](#). Providers should seek independent legal or financial advice if they require assistance with tax law compliance. If GST is applicable to a support, the price limit is inclusive of GST.

Other Fees and Charges

All registered providers must not add any other charge to the cost of the supports they provide to any participant, such as credit card surcharges, or any additional fees including any 'gap' fees, late payment fees or cancellation fees, unless otherwise permitted by this *Price Guide*.

Participants are generally not required to pay exit fees, even when changing provider's part way through a plan. A core principle of the NDIS is choice and control for participants, allowing them to change providers without expense.

Special NDIS Pricing Arrangements

High Intensity Supports

A support is considered a **High Intensity Support** if the participant requires assistance from a support worker with additional qualifications and experience relevant to the participant's complex needs. The high intensity price limits may be considered when:

- frequent (at least 1 instance per shift) assistance is required to manage challenging behaviours that require intensive positive behaviour support; and/or
- continual active support is required due to high medical support needs (such as unstable seizure activity or respiratory support).

Level of Disability Support Worker

Some high intensity supports have differential price limits that depend on the skills and experience of the Disability Support Worker who delivers the support.

- **Level 1 worker** support items should be used if the worker who delivers the support is someone who has the skills and experience that would mean that they would be classified as a Social and Community Services Employee level 2 (below the maximum pay point) if they were employed under the Social, Community, Housing and Disability Services Award 2010 ("SCHADS Award").
- **Level 2 worker** support items should be used if the worker who delivers the support is someone who has the skills and experience that would mean that they would be classified as a Social and Community Services Employee level 2 (at the maximum pay point) or as a Social and Community Services Employee level 3 (at the minimum pay point) if they were employed under the SCHADS Award.
- **Level 3 worker** support items should be used if the worker who delivers the support is someone who has the skills and experience that would mean that they would be classified above a Social and Community Services Employee level 3 (at the minimum pay point) if they were employed under the SCHADS Award.

In general, the Level 2 price limit applies to most high intensity supports. However, if the particular instance of support is delivered by a worker who does not have the skills and experience to deliver a high intensity support then the Level 1 price limit should be applied. If the particular instance of the support is delivered by a more highly skilled or experienced worker then the provider can consider applying the Level 3 price limit, with the participant's prior agreement.

Temporary Transformation Payment (TTP)

A number of supports in the Assistance with Daily Living Support Category and the Social, Economic and Community Participation Support Category are in the scope of the Temporary Transformation Payment (TTP). These supports have two support items, in line with the following example.

01_011_0107_1_1	Assistance With Self-Care Activities - Standard - Weekday Daytime
01_011_0107_1_1_T	Assistance With Self-Care Activities - Standard - Weekday Daytime - TTP

The price limit for each TTP item is higher than the price limit for the non-TTP item. The difference in price limits is 7.5% in 2019-20 reducing by 1.5 percentage points each financial year thereafter.

The non-TTP items should be used by providers who are not compliant with the TTP conditions (see below). The TTP items should be used by providers who are compliant with the TTP conditions. In order to access the higher TTP price limits, providers must meet the following eligibility criteria:

- they must publish their service prices prominently on their website, and make them available to participants, including participants who are not their clients, and the NDIA on request; and
- they must list their business contact details in the Provider Finder in the myplace portal and ensure that those details are kept up-to-date; and
- they must participate annually in an NDIA-approved market benchmarking survey.

Providers who meet these eligibility criteria are known as **TTP providers**.

As with all supports, providers must also agree the price that they will charge for a support with the participant. The price for a support cannot be greater than the relevant price limit.

Registration for TTP Eligibility

Providers who were active in 2019-20 will only be eligible to access the higher TTP price limits in 2020-21 if they have indicated to the NDIA before 1 July 2020 that:

- they have published, and will continue to publish, their service prices in accordance with the NDIS Price Guide;
- they have listed their business contact details in the Provider Finder and will continue to ensure that those details are kept up-to-date; and
- they will participate in the 2020-21 TTP Benchmarking Survey.

Providers who were active in 2019-20 and who have not provided the relevant indication to the NDIA before 1 July 2020, but who later want to access the higher TTP price limits in 2020-21, are subject to the same eligibility criteria as set out above. These providers are required to indicate their compliance with the eligibility conditions before they first make a TTP claim, rather than before 1 July 2020. They are only eligible to access the higher TTP price limits in 2020-21 from the date that they indicate to the NDIA that have complied with the eligibility criteria.

Providers who were not active in 2019-20 and who become active before the closing date of the 2020-21 TTP Benchmarking Survey are subject to the same eligibility criteria as set out above. They are required to indicate their acceptance of the eligibility conditions before they first make a TTP claim, rather than before 1 July 2020.

Providers in these three classes will cease to be eligible to access the higher TTP price limits from the closing date of the 2020-21 TTP Benchmarking Survey if they do not take part in it.

Providers who were not active in 2019-20 and who become active after the closing date of the 2020-21 TTP Benchmarking Survey are subject to the same eligibility criteria as set out above except that they are required to indicate their intention to accept the eligibility conditions before they first make a TTP claim, rather than before 1 July 2020.

All providers who claim for a TT support item are also required to acknowledge their compliance with the *Price Guide*, including the TTP requirements, when submitting a payment request through the myplace Provider Portal.

Plan managers and the TTP

Plan managers are not responsible for ensuring providers are TTP compliant. They can accept the claim for a TTP support item by a registered provider as proof of TTP compliance. Plan managers are however required to inform the NDIA, when requested, which registered providers have made a claim for a TTP support item through the plan manager. Non-registered providers are not eligible for the TTP and plan managers should not use TTP line items to claim for services delivered by non-registered providers.

Disability-Related Health Supports

The NDIS will fund disability-related health supports where these supports directly relate to a participant's significant and permanent functional impairment and assist them to undertake activities of daily living. These supports are provided individually to participants and can be provided in a range of environments, including, but not limited to, the participant's own home.

Participants are not permitted to claim for health supports from their plans when those health supports do not relate to their disability and when they do not require health supports on a regular basis. Those health supports will continue to be provided by the health system. Additionally, if a participant's support needs become acute, that support should be provided in a hospital or another health setting by the relevant state/territory health care system or private health system and not be claimed from the participant's plan.

The list below provides an indication of the majority of disability-related health supports that may be required by NDIS participants; however, it is not an exhaustive list. Disability-related health supports are expected to assist in areas such as:

- **Dysphagia:** for participants who have trouble eating, drinking or swallowing on a daily basis.
- **Respiratory:** for participants requiring help with their breathing and maintenance of their respiratory health, including any associated care, comfort, planning or supports
- **Nutrition:** for participants requiring help with the way they eat or understanding the food they need.
- **Diabetes:** for participants who have daily problems with how much sugar is in their blood.
- **Continence:** for participants who need daily assistance with toileting (bladder and bowel).
- **Wound & Pressure Care:** for participants who need daily wound and pressure care (resulting from pressure wounds or swollen limbs).
- **Podiatry:** for participants who require help looking after their feet, ankles and lower limbs.
- **Epilepsy:** for participants who need daily help managing the way epilepsy affects the way their brain and nerves work.
- **Botox and Splinting:** It is unlikely Botox and splinting supports will be reasonable and necessary to include in a plan, as these are generally provided in a clinical setting.

Five types of disability-related health supports have been identified in the *NDIS Support Catalogue*:

- Provision of Disability-Related Health Supports by Disability Support Workers – these supports should be claimed using the standard Daily Personal Activities and High Intensity Daily Personal Activities support items;
- Assessment, planning and the provision of Disability-Related Health Supports by therapists these supports should be claimed using the standard ECEI and Therapy support items;

- Assessment, planning and the provision of Disability-Related Health Supports by nurses – these supports should be claimed using the new nursing support items;
- Consumables related to Disability Related Health Supports – these supports should be claimed using the new Low-Cost or High-Cost Disability Related Health Consumables support line items; and
- Assistive Technology related to Disability Related Health Supports – these supports should be claimed using the new Disability Related Health Assistive Technology support line items.

Type of Nurse

An **enrolled nurse** is a person who provides nursing care under the direct or indirect supervision of a registered nurse. They have completed the prescribed education preparation, and demonstrated competence to practice under the Health Practitioner Regulation National Law as an enrolled nurse in Australia. Enrolled nurses are accountable for their own practice and remain responsible to a registered nurse for the delegated care.

A **registered nurse** is a person who has completed the prescribed education preparation, demonstrates competence to practice, and is registered under the Health Practitioner Regulation National Law as a registered nurse in Australia.

A **clinical nurse** is a more experienced and skilled registered nurse. Duties of a clinical nurse will substantially include, but are not confined to, delivering direct and comprehensive nursing care and individual case management to a specific group of patients or clients in a particular area of nursing practice.

A **clinical nurse consultant** is a nurse practicing in the advanced practice role. Advanced practice nursing is a qualitatively different level of advanced nursing practice to that of the registered nurse due to the additional legislative functions and the regulatory requirements. The requirements include a prescribed educational level, a specified advanced nursing practice experience, and continuing professional development. Nurses practising at an advanced level incorporate professional leadership, education and research into their clinically based practice. Their practice is effective and safe. They work within a generalist or specialist context and they are responsible and accountable in managing people who have complex health care requirements.

A **nurse practitioner** is an advanced practice nurse endorsed by the Nursing and Midwifery Board of Australia who has direct clinical contact and practices within their scope under the legislatively protected title 'nurse practitioner' under the Health Practitioner Regulation National Law.

Coronavirus (COVID19) Response

The Australian Government has enacted the Coronavirus Emergency Response Plan and the NDIA is taking necessary steps to prepare and support participants and providers during the coronavirus (COVID-19) pandemic. The Agency is collaborating with the Department of Social Services, Services Australia and the NDIS Quality and Safeguards Commission as well as health agencies to deliver the NDIA's Pandemic Plan in line with the Government's Emergency Response Plan. Further information can be found at [ndis.gov.au](https://www.ndis.gov.au).

The Agency has responded to the COVID19 pandemic through a number of temporary measures.

Increased access to Support Coordination

From 25 March 2020, the support items for Support Coordination were temporarily duplicated into the Core Support Category – Assistance with Daily Life – so that participants can have greater access to support coordination services if they need them. This change is temporary until 30 September 2020, with a review before the end of June 2020.

SIL Providers

From 30 April 2020, two new support items were temporarily introduced to support participants living in Supported Independent Living who have additional needs because of a COVID-19 positive diagnosis. These items are being introduced temporarily until 30 September 2020, with a review before the end of June 2020.

These support items will cater to three scenarios when a participant is diagnosed with COVID-19:

- They continue to reside in their normal SIL accommodation
- They are admitted to hospital
- They are relocated to alternative housing for isolation purposes or while transitioning into or out of hospital.

A single participant could move through all three scenarios over time, noting that a participant should only remain in their usual SIL accommodation if they self-isolate, have access to their own bathroom and do not come into contact with other residents or shared spaces.

Cleaning Services

Temporary support for participants who have been diagnosed with COVID-19 living in supported independent living arrangements and who require cleaning services to help prevent the spread of the disease. This support item can be used for a one-off professional deep cleaning of a residence of a participant newly diagnosed with COVID-19. The item is only claimable once per participant diagnosed with COVID-19.

Additional Supports

Temporary support for participants who have been diagnosed with COVID-19 living in supported independent living arrangements where additional supports are required by the participant because of COVID-19. The item can be claimed in addition to the usual SIL claim for the participant. The item recognises the additional costs of higher intensity support (staffing increase), Personal Protective Equipment (PPE), professional laundering, and any ancillary costs directly related to the participant's diagnosis.

The item can be claimed from the date that the infection is confirmed until the participant is no longer infectious. As a guide, the National Management Guidelines states that this is generally for a period of up to 14 days.

Assistive Technology Rental Support Items to facilitate Hospital Discharge

From 30 April 2020, two new support items have been temporarily introduced to provide participants that are discharged from Hospital with immediate access to any Assistive Technology that they need to be safe at home (or first destination) for six months until their short, medium and long term Assistive Technology and Home Modification needs can be assessed and an amended plan is in place. These items are being introduced temporarily until 30 September 2020, with a review before the end of June 2020.

Low Cost Assistive Technology – Capacity Building

From 30 April 2020, a new support item has been introduced so that participants can use capacity building funds to access low cost Assistive Technology items, such as smart devices and fitness equipment, associated with the delivery of their supports, in consultation with their existing support providers. This item is being introduced temporarily until 30 September 2020, with a review before the end of June 2020.

The low cost Assistive Technology (AT) is to support participants while:

- Face to face services are suspended due to social distancing regulations. This includes delivery of capacity building supports and interpreting services, which requires use of online appointments such as web or application based approaches.
- Increased physical isolation and physical distancing to minimise contact with people outside the household, to protect health and wellbeing (and/or the broader community) in line with medical advice for people considered high risk.

Participants can use their existing NDIS funding to purchase an item if:

- it will maintain funded NDIS supports like a program, therapy or requirement (for example physiotherapy or Auslan interpreting provided via video conferencing), and
- the provider of supports has confirmed in writing the device is necessary to continue supports and services while maintaining physical distancing requirements, and
- it is the lowest specification that will maintain funded supports, and
- they do not already have the item, another suitable item or access to the item, and
- the item has not been funded by another service system (such as education), and
- the item or circumstances are not specifically excluded.

Participants should not spend more than \$750 on electronic devices needed to maintain existing services. In the case of computer tablets or iPads for telehealth and care or participating in online video classes, advice from AT specialists is that most NDIS participants will not need more than a standard tablet, which costs no more than \$600.

The following items and circumstances are excluded from this policy:

- The item does not relate to the participants disability. A participant cannot purchase a smart device for entertainment, education, or gaming. A participant cannot purchase fitness equipment not previously used or recommended by the participant's provider or therapist in existing funded supports.
- Devices with extra specifications above the basic model. A participant can only purchase device that is fit for purpose for maintaining NDIS funded supports. The NDIS will generally fund the lowest specification. Top of the range specifications can only be justified if they are required as a result of a person's disability. For example: Therabands and a fitness ball may be sufficient to maintain an exercise program rather than a gym set. In the case of computer solutions, only participants who require 'head tracking' and other solutions are likely to need a large screen tablet or iPad, most other participants would only require an entry-level tablet. You should consult a specialised AT provider to advise you on any more complex products before making a purchase.
- Smart phones, tablets, or iPads with mobile connections cannot be purchased. Video conferencing and other functionality participants will need to access supports is available on tablets, iPads, or computers that are in scope and connect using wifi.

Special NDIS Pricing Arrangements

- Participants cannot purchase multiple devices. A single item can be purchased, where the participant does not already own or have access to a device that would meet their needs to continue to access supports and services. This includes if the participant already owns or has access to a suitable device through:
 - existing individual or family ownership
 - employment (for the purpose of working remotely)
 - education (for the purpose of studying remotely)
- Replacements for loss or damage will generally follow the existing NDIS AT replacement policy (noting that replacement of items will generally not apply once this policy ends).
- Internet connection and data, these are considered ordinary living costs (utilities) and are excluded from this policy.
- This policy will not fund applications or software, however apps that have been specified and approved in a plan can be paid for with NDIS funding.
- Additional hardware or accessories, other than standard protective cases will not be funded by the NDIS. This includes: screen protectors, additional or back up chargers, selfie sticks, connection cables

Additional hardware and accessories may be purchased if they relate to using the device because of the participant's disability, such as mounting on a wheelchair for a person with limited grip or rugged case where related to behaviour issues.

Purchase of items when renting the item might be a better option. For example, for some items that cost more than \$100, participants should consider renting these items during the COVID-19 constraints if that would be better value for money than purchasing them.

Core – Assistance with Daily Life

This support category relates to assisting with or supervising personal tasks of daily life to enable the participant to live as autonomously as possible. These supports are provided individually to participants and can be provided in a range of environments, including the participant's own home.

Daily Personal Activities

Assistance with Self Care Activities

These support items provide a participant with assistance with, or supervision of, personal tasks of daily life to develop skills of the participant to live as autonomously as possible.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of these supports can also claim for the costs of

- **Provider Travel - Non-Labour Costs** using support item 01_799_0107_1_1.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** when the support is delivered, and whether the provider is eligible for the **Temporary Transformation Payment (TTP)**.

Assistance with Self Care Activities – Night-Time Sleepover Support

This support item provides a participant with assistance with, or supervision of, personal tasks of daily life where overnight support is needed, but the caregiver can sleep when not required to provide support. This support applies to any day of the week and on public holidays. This support item includes up to two hours of active supports provided to the participant for the duration of the period. Providers may claim for the third or additional hour at Saturday rates on weekdays, or at applicable rates on other days (Saturdays, Sundays or Public Holidays).

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, this support item can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 01_799_0107_1_1.

This support item is subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
01_010_0107_1_1	Assistance with Self-Care Activities - Night-Time Sleepover	Each	\$214.03	\$299.64	\$321.05

Assistance from Live-in Carer

This support item provides for a person who lives in the house of, or travels with the participant and provides assistance with, and/or supervision of, personal tasks of daily life to develop skills of the participant to live as autonomously as possible. It can be delivered to individual participants subject to the rules set out in this *Price Guide*.

This support item is subject to quotation. It should only be used if it is a stated item in a plan.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
01_003_0107_1_1	Assistance from Live-In Carer	Hour		N/A	

Assistance with Personal Domestic Activities

This support item assists a participant to undertake or develop skills to maintain their home environment where the participant owns their own home or has sole or substantial responsibility for its maintenance. Includes assisting participant to do basic house and yard work.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, this support item can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 01_799_0107_1_1.

This support item is subject to price limits.

			National	Remote	Very Remote
01_017_0107_1_1	On-Call Overnight Monitoring - Off Site or Onsite (Includes 1 hour of assistance)	Each		N/A	

High Intensity Daily Personal Activities

Assistance with Self Care Activities

These support items provide a participant who requires **High Intensity Supports** to provide assistance with, or supervision of, personal tasks of daily life to develop the skills of the participant to live as autonomously as possible in circumstances where a more skilled or experienced support worker is required.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of these supports can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 01_799_0104_1_1.

Core – Assistance with Daily Life

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** when the support is delivered; the **Level of Disability Support Worker** who delivers the support; and whether the provider is eligible for the **Temporary Transformation Payment (TTP)**.

Assistance with Daily Life Tasks in a Group or Shared Living Arrangement

Assistance in Shared Living Arrangements – Supported Independent Living

These support items provide assistance with, or supervision of, tasks of daily life in a shared living environment, with a focus on developing the skills of each individual to live as autonomously as possible. The support is provided to each person living in the shared arrangement in accordance with their need. Support Independent Living does not include rent, board and lodging or other day-to-day usual living expenses such as food and activities. It also does not include the capital costs associated with a participant's accommodation. Further information can be found at the NDIS Supported Independent Living [webpage](#).

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of these supports can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 01_799_0115_1_1.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** on which the support is delivered, and whether the supports are **High Intensity Supports**.

Short Term Accommodation and Assistance (including the provision of respite care)

Standard support items

These support items provide integrated support for self-care, accommodation, food and activities in a centre or group residence for short periods. They recognise that, from time to time, participants may require temporary comprehensive supports that are different from their usual arrangements. These are non-typical days and may include Short Term Accommodation (STA) in a group-based facility. They may also include a period of respite, which aims to support ongoing caring arrangements between participants and their carers. STA/respite allows the opportunity for the participant to be supported by someone else whilst providing their carer with short term breaks from their usual caring responsibilities.

The support items include all expenses in a 24-hour period including assistance with self-care or community access activities, accommodation, food and negotiated activities. Typically, this type of support would be used for short periods of up to 14 days at a time (exceptions may be made such as for participants entering Voluntary Out of Home Care). For longer-term arrangements, other options are likely to be more appropriate (e.g. Supported Independent Living or Medium Term Accommodation).

In cases where a participant will receive substantially less than 24 hours of assistance with daily personal activities, it may be appropriate for the participant and provider to negotiate a lower price

than the maximum price specified in this *Price Guide*, based on the actual hours of support provided. This situation might arise, for example, if a participant enters a STA/respite facility in the evening, and exits again early the following morning. In addition, where a participant enters accommodation late in the day, it may be appropriate to claim the daily rate for the day of the week that the majority of the support is provided.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Short Notice Cancellations.**

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** on which the support is delivered, and the ratio of staff to participants in the facility delivering the short-term accommodation.

Additional hours support items

These support items are for additional support provided at the same time as a Short Term Accommodation (STA) support, where the participant requires 1:1 assistance with self-care activities in addition to the STA support. For example, where the STA support is at the 1:1 rate and the participant requires more than one support worker for a period of time, or where the STA is not at the 1:1 rate and the participant requires 1:1 support for a period of time.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Short Notice Cancellations.**

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** on which the support is delivered.

Medium Term Accommodation and Assistance (MTA)

This support item covers the accommodation costs of Medium Term Accommodation (MTA). The support component of the care is claimed separately. This support item recognises that there may be cases where a participant will require longer term transitional accommodation before moving into a more permanent home or arrangement (for example, after hospital discharge). Typically, MTA would be used for periods up to 90 days. Participants who stay in MTA are responsible for meeting their own food and everyday living costs from their own income rather than NDIS plan.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, this support item can be used to claim for

- **Short Notice Cancellations.**

This support item is subject to a price limit.

Residential Aged Care

A participant residing in a residential aged care facility has their reasonable and necessary needs met through a combination of supports provided by the residential aged care facility as required by the *Aged Care Act 1997* and supports provided by the NDIS according to their goals and individual circumstances. These support items are for the supports provided by the residential aged care facility. They can be delivered to individual participants subject to the rules set out in this *Price Guide*.

These support items are subject to quotation. They should only be used if they are stated in a participant's plan.

Individualised Living Options

These support items introduce new options and alternative ways of living for people with disability. Individualised Living Options (ILOs) are packages of support that are built as a result of holistically considering each individual's preferences, strengths, assets, support requirements, informal and community supports. An Individualised Living Option is not determined by the home ownership or leasing situation or eligibility for Specialist Disability Accommodation (SDA) funding. An Individualised Living Option is the support provided and not the accommodation or dwelling itself.

Further information on ILOs can be found at the NDIS [website](#).

Exploration and Design

This support item will help participants explore the Individualised Living Options paradigm and design an option suitable for themselves. Providers delivering this support item will:

- explore the vision of the participant for their future home and help all involved to understand the full range of options as to how a participant can be supported in the community;
- gain an understanding of a participant's strengths, with a focus on what they can do, and an understanding of how informal, formal and community supports will play a role in the participant's life, and build on this to design the individual support package;
- identify strategies to help the participant choose where to live, who to live with and how they are supported;
- find out what is possible and assess risks in the context of the participant's preferred way of living, and explore if there could be other options that might suit better; and
- design and make decisions with the participant and others about the options.

Depending on the circumstances, the exploration and design tasks may include assistance to locate suitable housing or linking with other funded or community or mainstream services.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, this support item can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 01_799_0106_1_1.

This support item is subject to price limits.

Support Model

This support item provides an Individualised Living Option to a participant. It can be delivered to individual participants subject to the rules set out in this *Price Guide*.

The Individualised Living Option is a package of supports that enables participants to achieve their home and living goals. It is made up of a personalised and detailed package of primary and supplementary home and living supports that are used flexibly and combine formal and informal supports such as implemented and managed through partnerships between the participant, their family, or a provider. The package includes resources for monitoring and redesign.

This support item is subject to quotation. It should only be used if it is a stated item in a plan

Disability Related Health Supports

Nursing

These **Disability-Related Health Supports** provide nursing care to respond to the disability-related health needs of a participant where that care is not the usual responsibility of the health system. They provide nursing care to respond to the disability-related health needs of a participant where that care is not the usual responsibility of the health system. They have been temporarily duplicated into the *Assistance with Daily Life* Support Category so that participants can have greater access to these supports if they need them. See page 85 for further information on these support items.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 01_799_0114_1_1.

These support items are subject to price limits.

Different price limits apply depending on **the Time of Day and Day of Week**; and on the **Type of Nurse** who delivers the support.

Supported Independent Living

In response to the COVID-19 pandemic, two support items have been introduced to assist participants who have been diagnosed with COVID-19 and who are living in supported independent living arrangements where additional supports are required by the participant.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

These support items are subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
01_795_0115_1_1	COVID-19 SIL Cleaning Services <ul style="list-style-type: none"> • Temporary support for participants who have been diagnosed with COVID-19 living in supported independent living arrangements and who require cleaning services to help prevent the spread of the disease. • This support item can be used for a one-off professional deep cleaning of a residence of a participant newly diagnosed with COVID-19. • The item is only claimable once per participant diagnosed with COVID-19. 	Each	\$300.00	\$420.00	\$450.00
01_796_0115_1_1	COVID-19 SIL Additional Supports <ul style="list-style-type: none"> • Temporary support for participants who have been diagnosed with COVID-19 living in supported independent living arrangements where additional supports are required by the participant because of COVID-19. • The item can be claimed in addition to the usual SIL claim for the participant. The item recognises the additional costs of higher intensity support (staffing increase), Personal Protective Equipment (PPE), professional laundering, and any ancillary costs directly related to the participant's diagnosis. • The item can be claimed from the date that the infection is confirmed until the participant is no longer infectious. As a guide, the National Management Guidelines states that this is generally for a period of up to 14 days. 	Day	\$1,200.00	\$1,680.00	\$1,800.00

Core - Transport

Transport enables participants to access disability supports outside their home, and to achieve the goals in their plan. If participants have questions about their transport support, providers may direct them to the NDIS factsheet available on the NDIS [website](#).

General Transport

This support item allows a participant pays a provider to transport them to an activity that is not itself a support – or to a support that is delivered by another provider. This enables the participant to travel to and from appointments or their place of work.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

This support item is not subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits

Core - Consumables

Consumables are a support category available to assist participants with purchasing everyday use items. Supports such as Continence and Home Enteral Nutrition (HEN) products are included in this category.

Information on the pricing arrangements for Consumables can be found in the *Assistive Technology and Consumables Code Guide* on the NDIS [website](#).

Core - Assistance with Social, Economic and Community Participation

This support category relates to assisting with or supervising a participant to engage in community, social, recreational or economic activities. These supports can be provided in a range of environments, such as in the community or a centre.

Assistance to Access Community, Social and Recreational Activities

Participation in Community, Social and Civic Activities

These support items enable a participant to engage in community, social and recreational activities.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of these supports can also claim for the costs of

- **Provider Travel - Non-Labour Costs** using the support item 04_799_0125_6_1
- **Activity Based Transport – Social, Economic and Community Participation Supports** using support item 04_590_0125_6_1.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** when the support is delivered, and whether the provider is eligible for the **Temporary Transformation Payment (TTP)**.

Group and Centre Based Activities

Group or Centre Based Activities - Standard

These support items assist participants to access community, social and recreational activities provided in a group setting, either in the community or in a centre.

These support items can be delivered to individual participants or to groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of these supports can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 04_799_0136_6_1
- **Activity Based Transport – Social, Economic and Community Participation Supports** using support item 04_591_0136_6_1
- **Centre Capital Costs** using support item 04_599_0136_6_1, when the support is provided in a centre rather than in the community.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** when the support is delivered; and whether the provider is eligible for the **Temporary Transformation Payment (TTP)**.

Group or Centre Based Activities – High Intensity

These support items enable a participant who requires **High Intensity Supports**, to engage in community, social and recreational activities in a group setting, either in the community or in a centre, in circumstances where a more skilled or experienced support worker is required.

These support items can be delivered to individual participants or to groups of participants who require **High Intensity Supports** subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of these supports can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 01_799_0104_6_1
- **Activity Based Transport – Social, Economic and Community Participation Supports** using support item 04_592_0104_6_1
- **Centre Capital Costs** using support item 04_599_0104_6_1, when the support is provided in a centre rather than in the community.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** when the support is delivered; and whether the provider is eligible for the **Temporary Transformation Payment (TTP)**.

Supports in Employment

While some participants, with supports offered through DES or employer reasonable adjustment, will successfully maintain work, others will need higher intensity, often daily, support delivered in the workplace to maintain employment. These supports have typically been available in an Australian Disability Enterprise. They can also be used in a range of employment settings including: private, government or not for profit organisations; a social enterprise or similar environment; self-employment or a micro-business; or a family run business.

Specialised Supported Employment

These support items are for participants who are employed and who are less independent in performing their work tasks or need frequent prompting and coaching to stay on track, communicate with others, or manage their behaviours.

Supports may be provided one to one or within a group based setting, complimenting existing or expected employer supports, and claimed according to the intensity and frequency of supports delivered to achieve employment goals. Supports can include:

- on the job assessments related to the impact of a person's disability on their ability to work;
- job customisation;
- on-the-job training and intermittent support with daily work tasks;
- direct supervision and/or group-based support to enable meaningful participation at work;
- physical assistance and personal care delivered in the workplace;
- supports to manage disability-related behaviour or complex needs at work; and
- non face-to-face activities that are directly related to supporting a participant's employment.

These support items can be delivered to individual participants or to groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of these supports can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 04_799_0133_5_1

- **Activity Based Transport – Social, Economic and Community Participation Supports** using support item 04_821_0133_5_1
- **Centre Capital Costs** using support item 04_599_0133_5_1, when the support is provided in a centre rather than in the community.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** when the support is delivered, and whether the provider is eligible for the **Temporary Transformation Payment (TTP)**.

Transitional Funding Arrangements

This support item can be used by current Australian Disability Enterprises (ADEs) registered as Specialised Supported Employment providers. This support item will allow providers to continue to claim under the pre-1 July 2020 ADE pricing arrangements for a period of up to 18 months, as agreed under the pricing transition arrangements.

This support item is not subject to a price limit. However, ADE providers that choose to use pre-1 July 2020 pricing arrangements during the transition period can only claim this item at the current Disability Maintenance Instrument (DMI) or Average Outlet Price (AOP) they currently have in place for each current or new supported employee.

04_891_0133_5_1	Supports in Employment - Transitional Funding Arrangements	Each	N/A		

Capital – Assistive Technology

This support category includes all aids or equipment supports that assist participants to live independently or assist a carer to support the participant. It also includes related delivery, set-up and some training support items. Usually, providing independent advice, guidance, trials, set-up and training (not bundled with the sale of an item) is funded through a capacity building support.

Information on the pricing arrangements for Assistive Technology can be found in the *Assistive Technology and Consumables Code Guide* on the NDIS [website](#).

Capital – Home Modifications and Specialist Disability Accommodation

This support category includes home modifications and Specialist Disability Accommodation (SDA) supports.

Home Modifications

Home modifications include design, construction, installation of or changes to equipment or non-structural components of the building, and installation of fixtures or fittings, to enable participants to live as independently as possible or to live safely at home.

Information on the pricing arrangements for Home Modifications can be found in the *Assistive Technology and Consumables Code Guide* on the NDIS [website](#).

Specialist Disability Accommodation (SDA)

Specialist Disability Accommodation (SDA) refers to accommodation for participants who require specialist housing solutions to assist with the delivery of supports that cater for their extreme functional impairment and/or very high support needs.

Information on the pricing arrangements for Specialist Disability Accommodation can be found in the *NDIS SDA Price Guide* on the NDIA [website](#).

Capacity Building - Support Coordination

The supports in this support category strengthen a participant's ability to design and then build their supports with an emphasis on linking to broader systems of support.

Level 1: Support Connection

This support item assists a participant to implement their plan by strengthening their ability to connect with the broader systems of supports and to understand the purpose of the funded supports. Support Connection assists a participant to understand their NDIS plan, connect participants with broader systems of supports, and provide assistance to connect with providers. Support Connection will assist participants to achieve effective utilisation of their NDIS plan and answer questions as they arise.

Support Connection also increases a participant's capacity to maintain (or in some cases change) support relationships, resolve service delivery issues, and participate independently in NDIA processes. Support Connection includes, but is not limited to:

- Understand the Plan;
- Connect with Supports and Services;
- Establish Supports;
- Coach, Refine, Reflect; and
- Report to the NDIA.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 07_799_0106_8_3.

This support item is subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
07_001_0106_8_3	Support Coordination Level 1: Support Connection	Hour	\$60.04	\$84.06	\$90.06

Where a participant aged 0-6 years is receiving assistance from Partners in the Community (PITC) delivering Early Childhood Early Intervention (ECEI) services, linking the family to a service provider/s (under ECEI best practice principles, a service provider operating under the key worker approach) and support through changes in circumstance will be delivered through Partner arrangements.

Where a participant aged seven (7) and over is receiving assistance from Partners in the Community (PITC) delivering Local Area Coordination (LAC) services, plan implementation and monitoring support will be delivered by a Participant's Local Area Coordinator.

Level 2: Coordination of Supports

This support item strengthens a participant's ability to design and then build their supports with an emphasis on linking the broader systems of support across a complex service delivery environment. Coordination of Supports is to focus on supporting participants to direct their lives, not just their services, and is focussed on assisting participants to build and maintain a resilient network of formal and informal supports. This involves working together with the participant to understand the funding, identify what participants expect from services, and how participants want this designed. Coordination of Supports also includes coaching participants, and working with participants to develop capacity and resilience in their network.

Coordination of Supports includes, but is not limited to

- Understand the Plan;
- Connect with Supports and Services;
- Design Support Approaches;
- Establish Supports;
- Coach, Refine, Reflect;
- Targeted Support Coordination;
- Crisis: Planning, Prevention, Mitigation and Action;
- Build Capacity and Resilience; and
- Report to the NDIA.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 07_799_0106_8_3.

This support item is subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
07_002_0106_8_3	Support Coordination Level 2: Coordination of Supports	Hour	\$98.06	\$137.28	\$147.09

Level 3: Specialist Support Coordination

This support is delivered utilising an expert or specialist approach, necessitated by specific high complex needs or high level risks in a participant's situation. Specialist Support Coordination is delivered by an appropriately qualified and experienced practitioner to meet the individual needs of the participant's circumstances such as a Psychologist, Occupational Therapist, Social Worker, or Mental Health Nurse. Specialist Support Coordination is expected to address complex barriers

impacting a participant's ability to implement their plan and access appropriate supports. Specialist Support Coordinators assist participants to reduce complexity in their support environment, and overcome barriers to connecting with broader systems of supports as well as funded supports.

Specialist Support Coordinators are expected to negotiate appropriate support solutions with multiple stakeholders and seek to achieve well-coordinated plan implementation. Specialist Support Coordinators will assist stakeholders with resolving points of crisis for participants, assist to ensure a consistent delivery of service and access to relevant supports during crisis situations.

Specialist Support Coordination is generally delivered through an intensive and time limited period necessitated by the participant's immediate and significant barriers to plan implementation. Depending on individual circumstances, a Specialist Support Coordinator may also design a complex service plan that focusses on how all the stakeholders in a participant's life will interact to resolve barriers and promote appropriate plan implementation. Once developed, a Specialist Support Coordinator will continue to monitor the plan, but it may be maintained by one of the participant's support workers or other care supports.

Specialist Support Coordination includes, but is not limited to

- Understand the Plan;
- Connect with Supports and Services;
- Design Support Approaches;
- Establish Supports;
- Coach, Refine, Reflect;
- Targeted Support Coordination;
- Crisis: Planning, Prevention, Mitigation and Action;
- Address Complex Barriers;
- Design Complex Service Plan;
- Build Capacity and Resilience; and
- Report to the NDIA.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 07_799_0132_8_3.

This support item is subject to price limits.

Item Number	Item Name and Notes	Unit	Price Limits		
			National	Remote	Very Remote
07_004_0132_8_3	Support Coordination Level 3: Specialist Support Coordination	Hour	\$186.58	\$261.21	\$279.87

Capacity Building and Training in Plan and Financial Management

This support assists the participant to build capacity to undertake all aspects of plan administration and management, including engaging providers; developing service agreements; maintaining records; paying providers; and claiming payments from the NDIA. This support focusses on strengthening the participant's ability to undertake tasks associated with the management of their supports. This includes building financial skills; building organisational skills; and enhancing the participant's ability to direct their supports.

Providers of these supports are expected to assist the participant to develop their skills for self-management in future plans, where this is possible.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 07_799_0117_8_3.

This support item is subject to price limits.

Psychosocial Recovery Coaches

These support items provide assistance for participants to build capacity and resilience through strong and respectful relationships to support people with psychosocial disability to live a full and contributing life. This support is designed to be able to maintain engagement through periods of increased support needs due to the episodic nature of mental illness. Recovery coaches work collaboratively with participants, families, carers and other services to identify, plan, design and coordinate NDIS supports.

The work of psychosocial recovery coaches requires lived and/or learnt experience. Recovery coaches must have tertiary qualifications in peer work or mental health (minimum of Certificate IV in Mental Health Peer Work or Certificate IV in Mental Health) or equivalent training; and/or a minimum two years of experience in mental health-related work.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of this support can also claim for the costs of

Capacity Building - Support Coordination

- **Provider Travel - Non-Labour Costs** using support item 07_799_0106_6_3
- **Activity Based Transport - Capacity Building Supports** using support item 07_501_0106_6_3.

These support items are subject to price limits.

Different price limits apply depending on the **Time of Day and Day of Week** on which the support is delivered.

Capacity Building - Improved Living Arrangements

The supports in this support category help participants to increase their ability to obtain and retain appropriate accommodation.

Assistance with Accommodation and Tenancy Obligations

This support item is to guide, prompt, or undertake activities to ensure the participant obtains or retains appropriate accommodation. This may include assisting to apply for a rental tenancy or to undertake tenancy obligations in line with the participant's tenancy agreement.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Capacity Building - Increased Social and Community Participation

The supports in this support category allow participants to take part in skills-based learning to develop independence in accessing the community.

Assistance in Coordinating or Managing Life Stages, Transitions and Supports

This support item, which includes mentoring, peer-support and individual skill development, is designed to establish volunteer assistance within the participant's home or community to develop skills. For instance, assistance in attending appointments, shopping, bill paying, taking part in social activities and maintaining contact with others.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of this support can also claim for the costs of

- **Provider Travel - Non-Labour Costs** using support item 09_799_0106_6_3
- **Activity Based Transport - Capacity Building Supports** using support item 09_590_0106_6_3.

This support item is subject to price limits.

Development of Daily Living and Life Skills

This support item provides individual life skills development and training including public transport training and support, developing skills for community, social and recreational participation. It also provides training for participants in groups to increase their independence in daily personal activities. This support item can be delivered to individual participants or to groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations.**

Providers of this support can also claim for the costs of

- **Provider Travel - Non-Labour Costs** using support item 09_799_0117_6_3
- **Activity Based Transport - Capacity Building Supports** using support item 09_591_0117_6_3.

This support item is subject to price limits.

Innovative Community Participation

This support item is designed to enable providers to offer new and innovative services to participant and is for mainstream providers who want to enable participants to access mainstream activities. Any standards applicable to the industry in which the provider operates would need to be met. All supports claimed under this support item need to be reasonable and necessary given the participant's plan goals.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*. This support item is not subject to price limits.

			National	Remote	Very Remote
09_008_0116_6_3	Innovative Community Participation	Each		N/A	

Community Participation Activities

This support item is designed to enable providers to claim reimbursement for the costs of tuition fees, art classes, sports coaching and similar activities that build a participant's skills and independence. This could include camps, classes, and vacation activities that have capacity building components. The support includes assistance to establish volunteer arrangements in the community, mentoring, peer support, and individual skill development.

All supports claimed under this support item need to be reasonable and necessary given the participant's plan goals. Supports that could be claimed include:

- Universal recreational activities: A limited number of lessons to enable a participant to try out an activity and test their capability and interest in further pursuing this activity – such as horse riding, art, dance or singing classes.
- Attendance at a “camp” or group that builds a participant's relationship skills and offer a range of activities and opportunities to explore wider interests.
- Other items or adjustments such as customised tools required because of the participant's disability.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*. This support item is not subject to price limits. It should only be used to recover the costs of the participant's attendance at the community participation activities.

Capacity Building - Finding and Keeping a Job

The supports in this support category help participants to find and keep employment.

Employment Related Assessment and Counselling

This support is designed to provide workplace assessment or counselling to assist participants successfully engage in employment. (Note: if a participant is employed and on award wages, then in most instances a work place assessment is available through the Employment Assistance Fund administered by JobAccess and is a free service to employers.) For employment related counselling, this support may benefit participants who have, for example, experienced traumatic injury and need significant support (over and above a mainstream employment related service) to develop a new work pathway.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for:

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using the support item 10_799_0128_5_3.

These support items are subject to price limits.

Workplace assistance

This support item provides workplace assistance that enables a participant to successfully obtain or retain employment in the open or supported labour market. This support can be supplied to any working age participant (including students reaching working age) with an employment goal. This may include supports to:

- explore what work would mean for them (discovery);
- build essential foundation skills for work;
- managing complex barriers to obtaining and sustaining employment;
- specialised job customisation;
- supports to transition from an Australian Disability Enterprise (ADE) to open employment;
- develop a career plan; and
- other capacity building supports that are likely to lead to successful engagement in a Disability Employment Service (DES).

Note: this support item cannot be used to fund a Certified education course (for example, Certificate I in Workplace Education), even if run within the provider's services, as this would be funded through the Vocational Education system.

This support item can be delivered to individual participants or groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

As well as direct service provision, these support items can be used to claim for

School Leaver Employment Supports (SLES)

School Leaver Employment Supports (SLES) are capacity building supports for students transitioning from school to employment. They are available during the final months at school and continue post school exit. These supports are designed to plan and implement a pathway to inclusive employment, focussing on capacity building for goal achievement. With appropriate supports, it is expected that the majority of SLES participants will transition to DES to undertake the job seeking, placement and post placement support phases of their pathway. These supports will have an individualised approach, with a strong emphasis on "try and test" work experience opportunities, (generally in work places that would pay award wages). Capacity building should focus on hard and soft skill development. Supports, more generally, should facilitate positive experiences that contribute to developing an understanding of work capability and confidence to step into employment. SLES should also help inform the level and nature of future supports needed to obtain and sustain employment.

Some students may already be engaged with the mainstream Disability Employment Service (DES) Eligible School Leaver program during Year 12 and therefore not require SLES.

This support item can be delivered to individual participants subject to the rules set out in this *Price Guide*.

This support item is subject to price limits.

Capacity Building - Improved Relationships

This support category is for the provision of specialised assessment where a participant may have complex or unclear needs, requiring long term or intensive supports to address behaviours of concern.

Specialist Behavioural Intervention Support

These support items include specialist behavioural intervention support, which is an intensive support for a participant, intending to address significantly harmful or persistent behaviours of concern. Behaviour support requires a behaviour support plan to be developed that aims to limit the likelihood of behaviours of concern developing or increasing once identified. This plan outlines the specifically designed positive behavioural support strategies for a participant, their family and support persons that will achieve the intended outcome of eliminating or reducing behaviours of concern.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of

- **Provider Travel - Non-Labour Costs** using the support item 11_799_0110_7_3.

These support items are subject to price limits.

Capacity Building - Improved Daily Living

This support category includes assessment supports, training supports, strategy development supports, and therapeutic (including Early Childhood Intervention) supports to assist the development of, or to increase, a participant's skills and their capacity for independence and community participation.

Early Childhood Intervention Supports (under 7 years)

These support items provide capacity building supports, including key worker, to assist a child (under 7 years of age) with developmental delay or disability and their family or carers in home, community and early childhood education settings, to work towards increased functional independence and social participation. These support items can also be used for the assessment, planning, and delivery of **Disability-Related Health Supports** where these supports directly relate to a participant's significant and permanent functional impairment and assist them to undertake activities of daily living.

These support items can be delivered to individual participants or to groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

Hour	\$86.79	\$86.79	\$121.51	\$130.19

Therapy Supports (over 7 years)

These support items provide therapeutic services to participants (over 7 years). In the NDIS, therapy supports are for participants with an established disability, where maximum medical improvement has been reached, to facilitate functional improvement. For people who access the Scheme as 'early intervention' NDIS participants, reasonable and necessary supports are likely to be a blend of medical and disability therapies, but should be predominantly disability therapy supports. Therapy in this context must be aimed at adjustment, adaption, and building capacity for community participation.

Maintenance care can be claimed against a participant's plan, where the primary purpose is to provide ongoing support for a participant in order to maintain a level of functioning including long term therapy/support required to achieve small incremental gains or to prevent functional decline,. In general, maintenance therapy that is reasonable and necessary should be delivered by carers who are or can be trained in this if required. Where a participant has a medical condition or disability that requires a particular regime to maintain functioning of a body part, or to slow the deterioration of a medical condition or body part, then these support items can be used to deliver reasonable and necessary training for non-qualified personnel to assist a participant, as part of usual daily care. These support items cannot be used for massage, delivered directly to impact a body part or body system, as these supports are more appropriately provided and funded by the health system.

These support items can also be used for the assessment, planning, and delivery of **Disability-Related Health Supports** where these supports directly relate to a participant's significant and permanent functional impairment and assist them to undertake activities of daily living.

These support items can be delivered to individual participants or to groups of participants subject to the rules set out in this *Price Guide*. Where a support item is delivered to a group of participants the provider should claim for the relevant fraction of the time of the support from each participant's plan.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

Hearing Supports

These support items provide for hearing services not covered under the MBS performed by a suitably qualified Audiologist or Audiometrist.

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*.

As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

Providers of this support can also claim for the costs of:

- **Provider Travel - Non-Labour Costs** using support item 15_799_0119_1_3 or 15_799_0134_1_3, depending on their Registration Group.

These support items are subject to price limits.

Multidisciplinary Team Supports

This support item enables a coordinated multidisciplinary approach to be delivered to participants beyond the age covered by the Early Childhood Early Intervention approach. All team members will claim against a single support item, thereby increasing flexibility in service delivery to reflect the changing needs of a participant. It can be delivered to individual participants subject to the rules set out in this *Price Guide*.

This support item can only be used with the prior approval of the NDIA.
