Kids in Focus

The Kids in Focus program partners with families with children 18 years or younger who have been affected by parental use of alcohol or other drugs (AOD).

We support parents to improve their relationship and support their child by:

- building parenting skills and capacity
- developing routines and structure at home
- encouraging engagement with community activities and supports
- providing information and support around AOD reduction and treatment
- focusing on attachment and children feeling/being safe in their home.

Kids in Focus invites self-referrals and referrals from family, carers, service providers, the Strong Families Safe Kids Advice and Referral Line and schools.

Contact Anglicare's Community Engagement Coordinator on **1800 243 232** or email connectsupport@anglicare-tas.org.au

The Kids in Focus program is funded by the Australian Government's Department of Social Services.
