Anglicare fees are updated in line with staff wage increases, and any significant government policy changes. If you have any queries, please contact Anglicare on **1800 243 232**.

Services and items not quoted above will be quoted on request and price agreed before service occurs/goods delivered.

Some of the prices in our Price List may appear higher than expected. This is because they reflect the face-to-face service and the professional time required for activities such as assessment, report writing, care planning, and coordination. These tasks are essential to ensure you receive safe, high-quality, and well-planned services. This is a requirement under the Support at Home Guidance.
