Anglicare's Drug and Alcohol Treatment Service (ADATS)

ADATS is a free statewide service for Tasmanians over the age of 14 whose lives are affected by alcohol or other drugs, including tobacco and vaping.

We work with individuals in their communities and consider each person's unique life experience to help with;

- reducing or stopping use as early as possible
- developing a plan to support change
- providing advice on practical next steps, and
- providing information and referrals to other services.

If you, or someone you know, would like to access this service, please contact us. We welcome referrals from other community and health service providers.

To make an appointment call 1800 243 232 or email connectsupport@anglicare-tas.org.au.

You can also ring our Alcohol and Drug Helpline for a confidential chat on 1800 161 266.

This service is funded by Primary Health Tasmania and the Department of Premier and Cabinet – Tasmania.
